DUTIES

CGL is a provider of justice facility planning, design, and program management and maintenance solutions to justice facilities and other public facilities throughout the U.S. and internationally. CGL Facility Management, LLC provides comprehensive contract facility maintenance services to commercial clients.

A Brief Overview:

The General Trades Technician will provide general maintenance to facilities and building maintenance. As a Maintenance Technician, you will be a valuable member of the maintenance team. Responsible for checking, troubleshooting, and making routine repairs in the following areas: electrical, air conditioning, water heaters, plumbing, painting, carpentry, and other building maintenance areas. Work can include work in tight spaces depending on the maintenance requirement.

What you will do:

Performs general maintenance and repair work on facilities and equipment.

Respond to service requests to include but not limited to electrical, furnaces, lighting, HVAC systems, appliances, water heaters, disposals, general plumbing & fixtures, carpentry, painting, roofing tasks, and other required maintenance items, may be required.

Performs routine preventative maintenance to ensure that machines operate smoothly, efficiently, and physical conditions of the buildings do not deteriorate.

Follow and adhere to an established preventive maintenance program for all heating and ventilation systems and perform the required maintenance including replacement of filters, etc.

Assist in emergency maintenance as required including sewage back-ups, water main and/or lateral breaks (dig to expose line, repair, and replace soil as needed), fires, other types of water leaks, appliance repairs, etc.).

Assembles, installs and/or repairs wiring, electrical and electronic components, pipe systems and plumbing, machinery, and equipment.

Checks blueprints, repair manuals and parts catalogs.

Installs, maintains, evaluates, and repairs any components of the facility's systems.

Operates plant equipment and building automation systems.

Maintain equipment such as tools, gauges, snakes, drills, etc., in ready repair. Operates trade related tools and equipment; maintains/assists an accurate inventory of all materials and tools.

Understand the proper use of equipment and chemicals and the use of personal protective equipment (PPE).

Reads and utilizes blueprints, plans, drawings, and sketches to determine the work to be performed and resources required.

Maintain a clean and safe workplace and perform all work in accordance with established safety procedures and according to the standards of CGL Facility Maintenance standards, OSHA requirements, and client's needs.

Handles hazardous materials in accordance with applicable laws and regulations.

Ensure that unsafe conditions are corrected in a timely manner. Observes all safety practices and regulations.

Ensures all maintenance conforms to qualify standards and designated timeliness.
Complete all required compliance, safety and developmental training as assigned.
Is available for on call services as needed.
